ROY J. BUXTON, Town Clerk.

Report of Superintending School Committee

To the Citizens of Corinna:

We hereby offer our report for the year ending Feb. 1st, 1929.

We believe that our schools have been generally satisfactory, and will continue to be so as long as the parents will unite with the teachers in furthering the progress of their children.

It was with a feeling of regret that we received the resignation of Mr. Gilpatrick, and we believe that we were very fortunate in securing the services of our present superintendent, Mr. Nickerson.

The most difficult problem with which we have had to deal has been transportation, and this can be handled satisfactorily only when the parents will cooperate fully with the school officials.

During the past year the Fisher and Town Farm school houses have been shingled on one side, inside repairs have been made at the Grammar building; the buildings at the Ridge have been painted two coats, and extensive repairs have been made on the shed and toilets at Morses' Corner.

During the coming year the north and west roof of the Grammar building should be shingled and painting and refinishing should be done in some of the rooms. New seats should be placed in the Town Farm

and Morses' Corner schools and new toilets built at the Fisher schoolhouse if that is to be opened.

We wish to thank our superintendent, Mr. Nickerson, and all who have cooperated to the good of our schools. We recommend the following appropriations for the following year:

Common Schools	\$7,000 00
Text Books	600 00
Supplies	400 00
Repairs	1,000 00
Music	400 00
Superintendent's Salary	460 00
High School Instruction	3,500 00
High school aside from instruction	150 00

Respectfully submitted,

D. K. MAXIM,
J. C. SMITH,
PERLEY IRELAND,
Superintending School Committea.

Report of School Superintendent

To the Superintending School Committee and the
Citizens of Corinna:

I herein submit my report of your schools for the
year ending February 1, 1929.

Schools opened in the fall with 258 boys and girls
enrolled in the elementary schools. With few excep-
tions they have maintained a fair average attendance.
We have not been so strict about the attendance as we
might have been had it not been for the prevalence of
influenza in some parts of our country.

Ten elementary school teachers have been employ-
ed without any changes in the force, which is very
gratifying to us.

The following table gives the names of the teachers,
their respective schools, weekly wages, and the num-
ber of children in all the grades.

Name of teacher	Name of school	Weekly wage	Number of children by grades.									Totals
			IX	VIII	VII	VI	V	IV	III	II	I	
Alice M. Macomber	Grammar	\$25.00	7	12	18							37
Erma Maxim	Sub-Gram.	23.00			20	15						35
Helen B. Stone	Intermediate	23.00					17	16				33
Alice M. Weeks	Primary	23.00								12	21	33
Velma P. Ross	Center Gram.	19.00	2	5	1	4	10					22
Katherine Buxton	Center Primary	18.00						8	2	4	10	24
Christine F. Veazie	Morse's Cor.	19.00	0	0	4	6	0	3	5	0	1	19
Rachel Turner	Bond's Cor.	18.00	2	3	0	0	0	0	3	0	2	10
Gertrude E. Russell	Town Farm	20.00	0	0	6	0	3	5	3	9	8	34
Dorothy McKenney	South Ridge	18.00	0	0	3	0	2	0	3	0	3	11

These teachers are careful, conscientious, and painstaking in their work of training the children. They are teachers with high ideals, striving to so train the boys and girls that our future citizenry shall be of no lower type than the present.

Everyone seemed sorry to lose the services of Mrs. Haycock as music director, but we are glad for her if she has bettered her conditions of travel, and is happier where she is now located.

We were quite fortunate to secure a trained music director to take her place; one who has had considerable experience as a teacher of school music.

THRIFT

It seems quite essential that people should accumulate a little property for their old age. The keynote to financial prosperity is saving, coupled with wise spending. In our thrift work we are trying to teach the children the value of saving, hoping they may form the habit. The fact that a very large percentage of the people who are over sixty years of age have to be supported by friends or charity makes it seem to us to be an important topic for consideration in our schools.

A large number of our children have already started bank accounts and are saving to add to it. The most valuable part of this is the formation of the habit of saving.

HEALTH WORK

All children from the third grade up have done the Health Crusade Chores. To some of the parents this seems to be useless work. But we think to teach a child habits of cleanliness and care of the body and teeth is of great importance to his future health, if he acquires the habits. We feel that parents should aid us by seeing that the children have tooth brushes, and that they use them, and do the other chores faithfully. A teacher doesn't have her children do these things because she herself likes to do it, but she does it because she thinks it is her duty to the children to do it. She deserves the help of the parents.

SPECIAL HEALTH WORK

Near the beginning of the fall term Miss Buck of the Main Public Health Association visited our schools giving talks on posture, care of the body and teeth, with special emphasis on the care of the six year molars. Few people seem to realize that the six year molars are the first permanent teeth. These teeth seem to be very susceptible to decay and a large percentage of the children loose them. Their loss tends to narrow the mouth thus changing its natural shape, which in turn often is a hindrance to good articulation of speech. It also tends to change the natural beauty of the facial expression.

About the middle of February Miss Dorothy Bryant, Director of the Division of Dental Hygiene, of the State Health Department, visited most of the schools. Her work was to examine the teeth of the first and second grade children, but in some of the schools she extended the work to all of the children.

Cards will be sent to the parents giving the results of her examinations. It is hoped that parents will feel the importance of this work and give some attention to the children needing it.

Words of commendation are due Mr. Mullen for the splendid work he does as janitor of our village schools. The janitor work of the outside schools is in charge of the teachers.

Seven conveyance teams are employed and the work done by them has been quite satisfactory. About 65 children are conveyed. Very few of them are less than one and a half miles from a school.

If the town of Dexter will unite with us in maintaining the Fisher school next year it might be best to open it.

The schoolhouses make a fine appearance in their new coats of paint. Some inside work should be done

in some of them. New paint and new curtains and in one or two instances a new stove with jackets for those that have none would make the rooms more comfortable and homelike. Also, it doesn't seem just "the thing" to continue with the seats of our grandparents time.

I find the Academy work under the direction of a very able principal with thorough co-operation on the part of the teachers. Principal Scott's report will give the details of the registration, attendance, work, etc.

Everyone is hoping that something may be done in the near future, in the way of renovating the Academy building to modernize it.

I have noticed in last year's report a recommendation for an agricultural course. Should the building be remodeled it should be made so that an agricultural course, a domestic science course, and a physical education course, may be added to our present secondary school work.

These courses are thought to be of so much importance that the State and the Federal Government offer subsidies for them.

In closing I wish to extend thanks to the teachers, superintending school committee, and all with whom I have come in contact for their co-operation and kindness.

Respectfully submitted,
FREDERICK M. NICKERSON,
Superintendent of Schools.

REPORT OF MUSIC DIRECTOR

The aim of Public School Music is to give the child a love or appreciation of music. Appreciation of music presupposes some understanding of music.

In the lower grades the synthetic method is stressed, rather than the analytic, leaving that for the intermediate and higher grades. Therefore rote songs are taught in the first grade and continued in a diminishing extent through the second and third grades.

The foundation of "sight singing" is laid during the first five years of school, beginning with the second grade and continuing in an increasing extent through all grades. In this period the children are required to learn scale relation, staff notation, and common rhythm, so that in the sixth, seventh and eighth grades they will be able to take up two and three part music with four part singing in the High School Glee Clubs.

In all grades, the children should hear the best music and learn the best music.

I here wish to thank the Superintendent and teachers for their co-operation.

Respectfully submitted,

EVA ELIZABETH KNOWLES,
Supervisor of Music.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To Superintendent F. M. Nickerson:

Herewith I submit the principal's report of Corinna Union Academy for the fiscal year ending February 1, 1929.

Nineteen pupils were graduated in June. One of these is in college, one in textile school, and two in

normal school. Of previous graduates there are now seven in college, and one each in schools of pharmacy, art and business.

In the Junior Prize Speaking Contest in June Made-line Ireland won first prize, Louise Milliken second and Lester Ervin third.

Since September sixty four pupils have been registered. Of these 27 are boys and 37 girls. Sixty two are residents in Corinna and two in other towns. Arranged by classes they are as follows:

	Boys	Girls	Total
Seniors	3	4	7
Juniors	7	12	19
Sophomores	8	11	19
Freshmen	9	10	19
	—	—	—
Total	27	37	64

The pupils arranged according to courses of study are:

	Boys	Girls	Total
College Preparatory	4	9	13
Commercial	9	9	18
English	14	19	33
	—	—	—
Total	27	37	64

The numbers according to studies taken are as follows:

English	64
French	26
Latin	13
American History	7
Ancient History	19
Algebra	23
Plane Geometry	8
General Science	15
Chemistry	13
Typewriting	24

Bookkeeping	24
Commercial Arithmetic	21
Stenography	18

The Seniors have a cash balance of \$132.78 for their graduation. This was raised mostly by their class play. The Juniors have a balance of \$3.18 and the Commercial Club a balance of \$37.00. The pupils have raised one half of \$57.00 to pay for a ten volume set of reference books, the town paying the other half.

Supplies of Chemicals and apparatus sufficient for our needs were added during the year. We have been well supplied with text books and other essentials.

I wish to give you and our joint board our thanks for your help and aid. And I am grateful to Miss Smith of the Commercial department, and to Miss Randall of the language department for their cooperation; likewise to Mrs. Haycock and to Miss Knowles who have conducted the music department.

Respectfully submitted,

J. A. SCOTT, Principal.

The selectmen have paid a wood bill for the elementary school department amounting to \$36.39. This will make the amount overdrawn that much larger, making it \$475.13, instead of \$438.74.

Also, the amount overdrawn over all accounts will be \$570.47 instead of \$534.08. The above payment was made since I closed my accounts.

REPORT OF PUBLIC HEALTH NURSE

To the Citizens of the Town of Corinna, I hereby submit my report of public health nursing service given during the past year:

Observation shows that towns providing health teaching in the schools and community and regular inspection of school pupils, lessen the chances for epidemics of contagious diseases. The privilege of having the services of a public health nurse in a community cannot be measured in money values. It is only after the epidemic comes that the cost can be counted.

The nursing service for the past year coming to Corinna through the county service has covered a period of three weeks, nursing service having been given in March, April, May, June, July and August. The kinds of work given have been school nursing which has consisted of inspection, class talks, home visits and service during the scarlet fever epidemic. Baby welfare has received attention through a well baby and pr  school conference. Figures on the work are as follows:

Full physical inspection of the pupils by the nurse	283
Special inspection for symptoms of scarlet fever	191
Pupils weighed by the nurse	283
Pupils whose vision was found to be defective	21
Pupils whose teeth were found to be defective	157
Pupils with throats showing symptoms of trouble	116
Pupils who were more than 10% underweight	27
Notice of defects sent to parents	139
Classroom talks given on health	7
Reference to family physician for consultation and treatment	47
Visits made to parents in their homes	41

These statistics show that a very high percentage of defects were found, according to the number examined, which indicates that parents are not attending to the correction of defects in the children as they should.

Of the forty-one home visits made in the interest of the work, twenty were made in an effort to check communicable disease and twenty-one to secure correction of defects in school children. Fourteen babies were brought to the Baby Conference for inspection and consultation with the nurse.

Demonstrations on health topics have been given before the Farm Bureaus on two occasions.

The appreciation of the nurse is extended to the physicians, teachers and Woman's Club for cooperation and assistance.

Respectfully submitted,

KATHERINE NOBLE, R. N.
Penobscot Public Health Service.

Librarian's Report

To the Board of Selectmen of the Town of Corinna:

I herewith submit the thirtieth annual report of the Stewart Free Library for the year 1928.

The library has been open for circulation and reading 101 days, and the number of books circulated during the period was 11,268 an average of 112 per day.

Volumes in Private Library	6583
Volumes in circulating library Dec. 31, 1927	8695

	15278
Volumes added by purchase during 1928	149
Volumes added by gift	6
Volumes added from pay table	24
Volumes added by binding magazines	28

Total number of books Dec. 31, 1928	15485
-------------------------------------	-------

The constantly growing demand for books of non-fiction consisting of biography, travel, history, etc., is making our small appropriation very inadequate. The price of all non-fiction books is much in excess of fiction and for that reason we are unable to meet the demands of our readers.

We strive to buy the best, but at the same time we are prevented by doing so on account of insufficient funds.

The usefulness of such a library as we have should

be so apparent that appropriations should increase to meet the demands of our patrons. What a library can accomplish depends almost entirely upon an adequate book stock and public interest. Every citizen in town should use the library regardless of the effort it costs.

The weekly story hour has been conducted by Miss Smith as formerly. That these story hours are enjoyed by the children is proved by the attendance. The largest attendance has been 75 children the smallest 23. Stories are told that are suited to the enjoyment and needs of the different ages.

There are branch libraries in several of our rural schools. We are looking forward to the steady growth of our library in usefulness to those interested in good books.

Respectfully submitted,

EDNA A. HUTCHINS, Librarian.

SELECTMEN'S REPORT

In submitting this report, we wish to offer a brief explanation. Because of several clerical errors contained in the last previous report, we have, for the sake of ready reference, and to preserve a continuous record, based our accounts upon the balances as given on pages 48 and 49 of last year's report, and taken into account the errors indicated therein.

We would also state that the acceptance of a report does not necessitate an acceptance of errors which it may contain.

We would also call your attention to the provisions of the Statutes of Maine which require the Tax Collector and the Treasurer to at all times during business hours, submit their accounts and papers for inspection by the selectmen: a Tax Collector to settle with the Treasurer, on the last day of each month, in full, for

all taxes then collected: and the Selectmen to thoroughly inspect the accounts of the Treasurer at least once in three months.

For financial statement of support of poor, see report of overseers of poor.

SCHOOL DEPARTMENT

Due to the fact that the balances given by the selectmen and Superintendent of Schools were not the same in last year's report, the balances differ this year also, but the expenditures are the same, and for a detailed account you are referred to the Superintendent's Report.

Following are summaries of the several accounts as they appear on our books.

Nursing Service Report

To the citizens of the town of Corinna, I hereby submit my report as a public health nurse for the period from Jan. 1, 1929 to Jan. 1, 1930.

This service is supported by town appropriation and by some of the proceeds of the Christmas seal sale.

During the year all the schools of this town were reached and the pupils inspected and weighed by the nurse.

Number inspected and weighed	307
------------------------------	-----

Defects found:

Vision	35	Corrected since last visit	8
Teeth	206	" " " "	56
Symptoms of Throat	42	" " " "	11
Posture	39		
10% underweight	30		

22 Six-Point children were found in this town. Later in the fall the schools in most instances were visited to present a health program and the high school was given an opportunity to enter the Health Play Contest offered by the Maine Public Health Association and the New England Health Institute. At this time 105 pupils of the village school were weighed by the nurse to start the health crusade

Notices were sent to parents of children having defects, and in many instances home visits were made to secure co-operation of the parent in having defects corrected.

In June an afternoon was given to a baby and pre-school conference at Morse's Corner, 8 children attending.

Arrangements were made with the State Department of Health for a series of Mother's Classes, but after a few meetings, which were not well attended, this valuable piece of work had to be dropped.

Two afternoons were given in connection with the Maine Baby Savings Society to pre-school and baby conferences. Arrangements were made to have the State dental hygienist attend one of these conferences to talk to the mothers about dental hygiene.

At the chest clinic held in Dexter in September, 4 people from Corinna availed themselves of the opportunity for chest examination.

In closing the nurse and her committee wish to thank the people of Corinna who by their co-operation have made it possible for the work to be carried on.

Respectfully submitted,
KATHERINE NOBLE, R. N.

School Report

To the Citizens of Corinna:

We hereby submit our report for the year ending February 1, 1930

We hereby submit our report for the year ending year have been very satisfactory. We believe the home training has a great deal to do with making a successful school.

The transportation still remains some problem.

During the past year the north and east roof of the Village school house has been shingled, minor repairs on inside, also basement walls repaired.

At the Center, the walls and ceiling of both rooms have been repainted, also new curtains hung throughout and one side of wood shed roof shingled.

Repairs have been made at Morse's Corner, Bonds, Town Farm, and Fisher schools.

This year a shed and toilet, to comply with the State law, will have to be built at Fisher school, also same at Bassets if it is decided to re-open this school. All the school houses should be painted outside, except the one at the Ridge, the Fisher house on the inside. New seats are needed at Morse's Corner and the Town Farm schools.

We wish to thank our Superintendent, Mr. Nickerson, for his faithful and untiring labor, and all who have cooperated to the welfare of our schools.

We recommend the following appropriations for the ensuing year:

Common schools	\$9,000 00
Text books	600 00
Supplies	600 00
Repairs	1,200 00
Music	400 00
High school instruction	3,500 00
High school aside from instruction	150 00
Superintendent	500 00
School committee	75 00

Respectfully submitted,

J. C. SMITH,
 PERLEY IRELAND,
 N. F. BURRILL,
 Superintending School Committee.

REPORT OF MUSIC DIRECTOR

To the Supt. of Schools, School Board and Citizens:

I deem it a pleasure to submit my first report concerning the progress of Public school music.

In establishing my doctrine of music in the schools, I maintain to uphold four principles, which are, to inspire love of music, develop a musical voice, teach sight singing, syllables as a medium, and to induce musical interpretation.

Evidence seems to indicate music as one of the earliest arts influencing child life. Even as an infant, the tone of voice, with which it is spoken to will determine the child's reaction. So, in primary grades we apply songs which inspire love of music from both the musical and literary standpoint thru rote songs,

which lay a foundation for the technicalities to be taught.

The children from grade III on, are not content to learn by imitation and suggestion, but have an increasing curiosity about concrete things and desire to manipulate them, consequently much technical work is undertaken. Their growing appreciation is augmented by knowledge. Therefore, during the following three grades sight-singing or music reading is being perfected, as the result of the acquisition of its principles of time and tune which are arranged pedagogically. Thus we attempt to complete all technique in seventh grade. Then three and four part singing is extensively practiced.

At this time I would like to make a plea for the introduction of a music appreciation course. This is possible only with proper equipment. It is necessary to have the arrangement of phonograph records, bringing to the child the first medium of musical expression—the voice; then introducing each instrument of the string, woodwind, brass and percussion families which are known or recognized by its tone quality. Finally all the instruments are combined in an orchestra.

The technique of each composer is detected, the types of music recognized and musical design is learned. Even if the students' acquired knowledge is not applied by attending symphonies or operas, the radio—the universal symphony, will give the student a splendid opportunity for the application of the Music Appreciation Course and broaden the musical outlook.

We have a small orchestra at the Academy this year, boasting only five players. At some future entertainment they will be featured and we hope you will be present. I wish the parents would persuade their children to specialize in an instrument. It is a most pleasant recreation and at the same time beneficial.

The choral groups in the Academy will soon be working on a musicale, accompanied by some grammar grades which will display their musical ability.

I will take this opportunity to show my appreciation of the cooperation of the Superintendent and teachers, and their efforts in attaining a high musical standard in the school.

Respectfully submitted,

ALEIDA H. ROOS.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To Superintendent of Schools, F. M. Nickerson:

Herewith I submit the principal's report of Corinna Union Academy for the fiscal year ending Feb. 1, 1930.

In June 1929 seven pupils were graduated, three boys and four girls.

Since September eighty-four pupils have been registered. These according to classes are as follows:

	Boys	Girls	Total
Seniors	7	13	20
Juniors	7	12	19
Sophomores	9	9	18
Freshmen	14	11	25
Specials		2	2
Total	37	47	84

The number of pupils according to studies pursued are as follows:

English	84
French	34
U. S. History	20
Civics	20
Ancient History	27
Bookkeeping	32

Shorthand	29
Geometry	5
Typewriting	34
Commercial Arithmetic	24
Algebra	28
Science	34
Latin	8

There are ten recent graduates of the Academy now enrolled in various New England Colleges. All are doing creditable work and some have attained honors. They are members of all classes from freshman to senior, and are enrolled as follows: Two in Colby College, one in Bates College, three in the University of Maine, two in Boston University, one in Northeastern and one in Lowell textile school. Besides, there are five recent graduates attending three of the Maine Normal schools.

The pupils through various school activities have the following cash balances to be devoted to their several purposes:

Seniors \$105, proceeds of class play, to be spent on graduation. The Basket Ball team balance is \$42. The Commercial Club play netted \$66. And there is \$19 obtained by magazine sales to be expended no Science apparatus.

We are much overcrowded in the Academy building, but, though the weather has been severe, we have maintained comfortable temperatures. However, it seems that on account of the ancient furnaces, the fuel consumption is excessive.

Our supplies, books and apparatus have been ample for our needs, and we only wish we had more suitable quarters for our work.

In the recent eye and ear test 25 percent of the pupils were found defective.

I wish to express my thanks to my associates Miss Smith, Miss Randall and Miss Roos for their assistance and cooperation; also to yourself and the members of our joint board for your encouragement and support.

Respectfully submitted,
JOHN A. SCOTT, Principal.

Report of Superintendent of Schools

To the Superintending School Committee and the
Citizens of Corinna:

I herein submit my report of your schools for the
year ending February 1, 1930.

The school census taken in the spring found 195
boys and 239 girls of school age. Of these 327 were
enrolled in the schools at their opening in September.
With few exceptions these children have maintained
good average attendance.

The following table gives the names of the teachers,
their respective schools, their weekly wages, the num-
ber of children in the different grades, and the num-
ber in all the grades.

Eight of this number come from other towns and are therefore tuition pupils.

The course in music has been directed by Miss Aleida H. Roos, a graduate of Boston University, department of music. Miss Roos has put her whole time into the work in this union and the results are very gratifying. See her report for details of the work.

No special health work has been done by the superintendent this year, but the teachers have carried on that which is regularly required, and also the "Health Chores." For other health work see the report of the "County Nurse."

The town of Dexter unites with us in supporting the Ridge school; the expense being divided in proportion to the number of children from each town.

The janitor work of the village schools has been in charge of Mr. R. W. Quimby. The efficiency of Mr. Quimby's work is too well known to all, to need any word of commendation from the superintendent.

The janitor work of the outside schools has been in charge of the teachers, they doing the work themselves or securing someone to do it for them.

Seven conveyance teams are being maintained this year, at an average weekly expense of \$87.23. Approximately forty children are being conveyed.

Excellent work is being done by the Academy under the able direction of Prin. Scott and his teachers. Although cramped for room, they are making the best of what they have. Prin. Scott's report will give the details of the school and its work.

Our attendance officer, Mr. Lawrence Metevier, has always been ready to do his part in connection with the schools. If any child is not attending school as his teacher thinks he should, it is her duty to notify the attendance officer; it then becomes his duty to learn the reasons why, and if there be not good and sufficient reasons for absence, to see that the child attends school regularly thereafter.

In general, we are endeavoring to inculcate in the

minds of our children, sympathetic attitudes toward,—habits of economy and thrift; the desire for healthy living; kindness toward one another; kindness toward all animals and birds; respect for the aged; reverence for all things sacred and holy; and a desire to so live that they may be of the greatest use to the world, and be able to get the most value and happiness out of their lives.

The school committee has been very helpful to the superintendent and the teachers in the discharge of their duties. The members of the committee have very freely given of their time, and thought at all times when approached on any school matters. They have spent a good many hours and sometimes left important work to attend to the duties which the position requires to be done.

There is an old saying that "A thing that isn't worth paying for isn't worth having." As the years go by the work of the committee, like nearly all other kinds of work, is larger and more exacting. A small remuneration, by the town, for their services, would be greatly appreciated by them.

The report of the school committee will give details about repairs done, and those needing to be done.

Several conditions have contributed to cause the overdraft in the elementary school department. There has been a falling off in tuition received; an increase in cost of conveyance; and one school added.

The following shows a comparison of amounts available, and costs for the six years last passed by, as shown by the town reports.

1924-25	amt. available	\$11,252.28	expended	\$10,414.24
1925-26	"	12,130.62	"	10,877.69
1926-27	"	11,634.00	"	11,270.07
1927-28	"	10,891.59	"	10,772.66
1928-29	"	10,678.33	"	11,101.96
1929-30	"	10,042.76	"	11,299.19

When I took up the work here I was informed that there is a vote on record to have thirty-four weeks of school a year.

Last year we had an overdraft of \$423.63 for which no provision was made at the last town meeting. Also, at the last annual meeting it was voted to authorize the school committee to open the Fisher school, and no provision was made to pay for that. Our schools for this year have produced an overdraft of \$832.80, which with last year's overdraft make an overdraft of \$1,256.43.

Though I regret this overdraft, I am not making excuses, nor blaming anyone for it. I am simply writing these things that all who read them may understand about the matter. However, if this is not to be continued one of three things must happen, namely: We must have more funds; pay less wages to teachers; or have fewer weeks of school.

Thanking all with whom I have come in contact for their kindly and helpful attitude and suggestions, I

Respectfully submit this report.

FREDERICK M. NICKERSON,

Superintendent of Schools.

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
